

The XBox 360 is Here! Did the DoD Play a Role?

Description

A while back I blogged on some history of [training development I worked on in the Navy](#) with the Battle Force Tactical Trainer (BFTT) project, begun by Capt. Herb Kahler in the early 90s.

Does the new [XBox 360](#) owe a tip of the hat to a bunch of war fighters and federal tax dollars for its development? hmmm...consider how your tax dollars keep giving and giving.
