

Valour-IT: Navy Goes Vertical, SINGES COMPETITON!

Description

VALOUR-IT NEWS FLASH!

SR-71

Whoda thunk it? From "Tail End Charlie" (man, the view was UGLY back there!) to "Leader of the Pack" (how's it looking now?) in a few hours!

Oh, and that's [Capt Lex](#) in the chase F/A-18!

This stunt was brought to you by the cold, calculating, strategic thinking idea people of Team NAVY (lay back and let them wear themselves out, then smoke by them like you hair's on fire!) at \$5500+ in the lead and accelerating towards the finish line!

[Grab an auction to bid on](#) and see if you ground pounding, movie watching, golf and bowling "experts" can catch us!
