

“The Free and the Brave” by MilBlogger Greyhawk

Description

He said what? Here’s why:

After effects of the [Toby Keith concert](#): Wrote this country music song while driving around in my humvee. Maybe later I’ll work out the guitar part and record.

The result?

The Free and the Brave
[Greyhawk]

Over in America, home of the free
Land of unlimited opportunity
People in the streets protest whatever they can
While over in Iraq and Afghanistan

The brave, far from home, are standing tall
toeing the line, so they can have it all
Some like to complicate it but it’s simple to me
<i>They’re making noise, we’re making history.</i>

He already “wrote” the words for [one song](#), which a group, 3db Down, used the words from one of his posts of his for his prior trip to the sandbox (2005).

I think he may have a career planned for retirement!
