

What's Society Coming To?

Description

Maybe we'll have to begin paying farmers not to grow peanuts anymore, for fear a small segment of society will demand complete access to all venues, public or private, free from any responsibility to avoid situations that may, in fact be life threatening!

Peanuts in here warning

From a local franchise door, no kidding!

How soon do we stop driving on roads because it's too difficult for parents to pay attention, lean out the window and yell "GET OUT OF THE STREET BEFORE YOU GET HIT BY A CAR!" when little Johnny strays off the grass and onto the asphalt? When you see the signs in your neighborhood "No Motorized Vehicles Allowed" "Children Might Be on Roadway" you'll know we're renounced all personal responsibility!
