

A story of a Saudi suicide bomber, who is still with us

Description

I found a very interesting story via [Mudville Gazette](#). It came from [USA Today](#), but I'm not sure much farther this has been propagated.

Anyhow, [this is a report](#) from an 18 year old Saudi man who became a suicide bomber, and we betrayed. Read it. It will put a face to those who do this type of thing, and how it changed his life.
