Yep, Iâ€™m still hereâ€¦

Description

I am hoping to attract a readership, and I see there are some people who come around, and I know I havenâ€™t posted stuff in a few days.

Iâ€™ll just say the last two nights were spent â€œcomment-sparringâ€• with Zippo over on Chapâ€™s blog. Iâ€™m not sure if it will do anyone else any good, but it helps me vent a little frustration with those who somehow cannot face much (if any) truth. There are things you just have to grasp. I skydived for a long time. One of the Tâ€™s that showed up sometimes, which was a rip-off from the physicists said: â€œGravity, itâ€™s not just a good idea, itâ€™s the law!â€•

In case youâ€™r the least bit interested in a good piece Chap wrote on why the Left doesnâ€™t get the military use thing, go here.

Default watermark

(PSST!: Read the comments, too and see what Zippo thinks!)

Iâ€™ve got a few posts ruminating aroundâ€¦.please come back and see what â€œrandom thoughts I come up withâ€¦.
