A story of a Saudi suicide bomber, who is still with us

Description

I found a very interesting story via Mudville Gazette. It came from USA Today, but Iâ€™m not sure much farther this has been propagated.

Anyhow, this is a report from an 18 year old Saudi man who became a suicide bomber, and we betrayed. Read it. It will put a face to those who do this type of thing, and how it cnaged his life.
