A new â€œacronymâ€• for general useâ€¦.

Description

Many times I have talked to or read stuff written by people who fall into the â€œYeah? And what about BUSH-HITLER?â€• when you comment on problems. Only complaints, never a plan, liberally laced with constant negativism.

I regularly think they just canâ€™t see they also have the option to solve problemsâ€¦.

Soâ€¦I have decided to come up an abbreviation to toss in their face:

â€œShut Up, Suit Up, and Step Up!â€• is the long form. Shortened, itâ€™s just â€œ(SU)^3.â€•

I put up a post last month speaking my piece on how I feel about the current lack of concern about the National Organization of Women.

Iâ€™d just love to see these complainers put their actions in line with their complaining, and to realize they can be agents of change.

Thoughts? I need no royalties, nor credit, but just the faith that will get a few of them thinkingâ€¦..
