TQM and al-Queda

Description

I know about TQM and â€œoff-sites.â€• They are special in their own way.

Anyhow, it seems the Dr. Demming methodology has been adopted by the terrorists and al-Zarqawi reports he got a memo:

> â€œAnyway, IÃ¢â‚¬â„¢m in the middle of Xeroxing some ammonia nitrate receipts Friday morning, thinking about what I needed to pack for the weekend family trip to Damascus, when I get another memo:
>
> From: A. al-Zawahiri
> To: All Associates
> Subject: Mandatory Weekend Retreatâ€•

default watermark

Itâ€™s worth the read, if for no other reason than to understand how universal the feeling are about some of the TQM driven meetingsâ€¦.

Oh, make sure the kiddies arenâ€™t shoulder surfing, and depending on where you work the memo might not be work safe, so plan accordingly before you click the link to get â€œthe rest of the story.â€•

Hat tip to Little Green Footballs for the lead to IowaHawk.

Thanks to Mudville Gazette for the Open Post opportunity!
