DC MilBlogging Conference

Description

Some earlier infoâ€¦

The first session is over and the discussion was centered on the purpose and (implied) the responsibility of MilBloggers. Iâ€™m sure the main site is going to cover this well.

The side discussions have been interesting. After thinking Neptunus Lex was this completely amazing writer of the â€œRythymsâ€• blogvel, I now know he has had assistance from a ghostâ€¦.well, itâ€™s still good anyhow, and I understand how the ghost writing made the detail of another area fit the overall â€œlook and feelâ€• of reality the Lex so masterfully weaves into the online story.

More later, but this is â€œfrom my perspective,â€• something that was highlighted as to what we can do best in the MilBlogging universe.
