I wish I could find out more on the USS Neosho (AO23)

Description

The comment is buried back in a post I did a while back titled â€œSurvivors of the Battle of Coral Sea â€“ USS NEOSHO.â€•, Jayna left her comment for information on her Grandfather.

Hereâ€™s her comment/request:

> â€œI wish I could find out more on the USS Neosho (AO23). My grandfather died on the 68 man raft, less than 2 weeks before my father was born. If anyone knows of any survivors or has letters from the crew of the AO23, please contact me at wknight6@comcast.netâ€•

I tossing this up with a prayer that through the â€œsix degrees,â€• someone reading this will be connected with someone who knows. Do you know a WWII Navy Vet? Pass it along, maybe collectively, the community of bloggers can pass her some valuable leads.
