Toys (for Big Boys and Girls)!

Description

More cool, as in waaaayyyyy cool stuff. Less than one oz, can be mono or binocular setupâ€¦

Lumus PD-20 Mono display

Lumus PD-20 Micro Display

Another fine looking product, with all sorts of implications for warfighting, and just plain old video watching and regular work. When the resolution gets up with 17â€³ display capability, then great for the leading edge games programs.

Ohâ€¦and itâ€™s out of Israel, too.

default watermark

Andâ€¦how about true 3D displays?
