2000: USS COLE (DDG-67) Attacked

Description

Eagle1 posted, as did others, in rememberance of the the attack by a small boat on the USS COLE (DDG-67) in Yemen.

At Linda Sogâ€™s blog, she has posted pictures of the 17 shipmates we lost that day.

We can take solace in knowing the USS COLE, as are all other vessels attacked in the the ramp up to the GWoT, returned to sea service and were not lost, a tribute to the crews we entrusted with these large vessels.
