Valour-IT: Whereâ€™s Noonan?

Description

Good question, however, the correct day to wonder where an Air Force guy went.

Some would call it â€œAWOL,â€• but the real term is â€œUAâ€• for â€œunathorized absense.â€•

Last time this happened (Scott Oâ€™Grady), it was the MARINES who saved his grounded tail.

How appropriate, on the very day we honor the 231th birthday of the CORPS, that we have to ponder this question. The good news is: We already know how to fix it: Send for the MARINES!

If youâ€™ve seen John, tell him to get back on task and let VC know the MARINES arenâ€™t required to leave the bar and interupt their celebrations!

Youâ€™d think he would have come up on distress by now, hollering for th PJs to get him back to the O Clubâ€¦..
