> The biggest threat to America is not communism, itâ€™s moving America toward a fascist theocracyâ€¦ â€” Frank Zappa

I found this as the â€œtaglineâ€• for a posted â€œNCrefugeeâ€• (I thought we werenâ€™t supposed to use that word any more, because it makes people feel bad) at Daily Kos, where he posted, suspecting a grand conspiracy of right wingers using zombie computers to bias the outcome of the weblog awards by deleting cookies, so you can vote over an overâ€¦ Geezâ€¦I guess if you live in a world where itâ€™s all about a conspiracy behind every grain of sand, then all in life can ebe explained thru that sort of filter.

For a drug overdosed hippy, Frank sure seemed to be â€œspot on.â€• Iâ€™m sure he wasnâ€™t able to forsee the future, where an Islamofascist government disallows all things non-Muslim, starting with any devisive comments about the religion. I bet he didnâ€™t conceive of the â€œpoligionâ€• that this will bring, if we keep backing away from anything that hurts the feelings of those of that faithâ€¦
