Light Blogging for the Weekend

Description

I will be stress testing the aging muscles and the mental ability to efficiently place objects into vehicles to maximize the transportation assets for a friend, beginning in about an hourâ€¦.soâ€¦may not be around this weekend.

Consider this a â€œbonus trackbackâ€• post. If you have something good, help me out! Send your good stuff along.

In the meantime, from the way back machine, hereâ€™s a link to my testimony about mail to â€œany sailorâ€• and how wonderful the experience it was for many of us in the Med off the coast of Libya in 1986.

Please consider sending cards of letters to our service members around the globe. Trust me, a hand written letter, just sharing your day can do wonders for the soul.
