Arrived, Well, Alive I Guess â€“ More Blogging Lessons Learned

Description

I suspect I know the answer, but will be trying things out in a few moments. I suspect why one domain and assocaited blog moved so easily is that is wasnâ€™t associated with my first domain and therefore main account. I thing two hosting sites, both pointing the blog and its clone to the same name servers didnâ€™t helpâ€¦..

Anyhowâ€¦.I have arrived and even I can get to my blog the â€œright way.â€•

I believe I have all the links resetablished to keep the internal functions of the blog intact (going back to older posts), thanks to â€œfind and replaceâ€• in WordPadâ€¦.

Back â€œonlineâ€• tomorrowâ€¦

For those who have re-found me, thanks for hanging aroundâ€¦.
