So I Look Up and See 8 Twin Ottersâ€¦.

Description

As I was chatting with a customer on site this morning, we hear a droning above and I look up to see 8 Dehaviland Twin Otters cleaning up a â€œVâ€• formation, heading south, maybe around 12K ftâ€¦

So he tells me that are working this week to break the 200 way â€œsequentialâ€• freefall formation record (meaning making multiple, planned formations together on the same jump â€“ all with 200 participantsâ€¦). I think I might head back up this way Saturday, armed with sunscreen to see what happens.

Skydiving: When formations are that big, it is a great spectator sportâ€¦.
