A Little Safety Humor from USS STENNIS

Description

As a follow onto the successful VAW community music videos, I present this. You know, Iâ€™m beginning to wonder why there are so many YouTube type works on the Navy coming out of the aviation community. Is it they submariners and black shoes are too busy, or just not creative enough? You be the judge!

â€œSafety Chiefâ€•

Technical note: I guess I still have to figure out why YouTube videos donâ€™t always play nice in WordPress, so just click and have fun!
