BIll Engvall Flies with the Thunderbirds

Description

Doing some idle channel surfing, looking for some mental bubble gum led me to the Comedy Central a few evenings ago, where they had Bill Engvall doing his new routine â€œ15 Degrees Off Cool.â€• Bill, if youâ€™re not lighting up on the name, is one of the three comedians featured in the â€œBlue Collar Comedy Tourâ€• movies. along with Jeff Foxworthy and Larry the Cable Guy.

Anyhow, the routine is pretty good, but the last 10 minutes are the best. Bill got a call from the US Air Force Thunderbirds, inviting him to come to Nellis Air Force Base and ride along as a V.I.P.

Seek out and find the showing on the Comedy Central of â€œ15 Degrees Off Coolâ€• and enjoy a wildly candid, â€œtransparentâ€• monologue about getting a ride in an F-16 Falcon. Donâ€™t be chugging anything liquid once he begins the taleâ€¦..
