

Interesting....

Description

Surfing about, I read [Secretary Rice is making a trip to Libya and Sudan](#) to discuss Darfur.

Sometimes it's what isn't going on that's very important.

Lemme see....the Speaker of the House is in Syria and Saudi Arabia to undermine the US foreign policy on the War on Terror, and the SEC State is headed to Africa to try to end the genocide in Africa by TALKING TO THEM!

Did I miss something, or wasn't it a large number of liberals, notably the Hollywood crowd, all hollering that we need to do something about the slaughter in the Darfur region? And they also demand we "talk to 'them'" before using the military might of the nation?

Actions...they speak volumes. Guess who's in it for the power, and who's in it for the human race?
