Interestingâ€¦.

Description

Surfing about, I read Secretary Rice is making a trip to Libya and Sudan to discuss Darfur.

Sometimes itâ€™s what isnâ€™t going on thatâ€™s very important.

Lemme seeâ€¦.the Speaker of the House is in Syria and Saudi Arabia to undermine the US foreign policy on the War on Terror, and the SEC State is headed to Africa to try to end the genocide in Africa by TALKING TO THEM!

Did I miss something, or wasnâ€™t it a large number of liberals, notably the Hollywood crowd, all hollering that we need to do something about the slaughter in the Darfur region? And they also demand we â€œtalk to â€˜them'â€• before using the military might of the nation?

default watermark

Actionsâ€¦they speak volumes. Guess whoâ€™s in it for the power, and whoâ€™s in it for the human race?
