The USAF is Going â€œGreenâ€• Now

Description

Stumbling about and I find more â€œperipherialâ€• knowledge:

Green Side of the Air Force is posted on one of the recently added MilBlogs: Jarhead Trader.

Interesting. A large photo voltaic array is going in at Nellis AFB and they are experimenting with JP-8/syntheitc fuels in a 50/50% mix for B-52s.
