William Hughes (Carrier Page Author), Please Contact My Office

Description

I know you stop by to read the blog once in a while, and Iâ€™m working up the email list for ValOUR-IT. I lost your email address in the hosting service move, so please help me update my records. Comment or email works for me.

(Oh, and put some contact info on the carrier page!)

For those of you who havenâ€™t seen it, William has built and maintains The Carrier Page, a history of the US Navyâ€™s aircraft carriers. He was a supporter of ValOUR-IT last year. Stop by his site and see what he has compiled.

Update 6/27/2007: First off, Bill tells me the email info is on his page. Second, so you donâ€™t have to jump to the comments, Rusty Bill reports about â€œcurrent opsâ€• on his historical website:

> Warning to prospective visitors: The Carrier Project is currently undergoing a massive refit â€“ a total reformat and rewrite, in fact.
>
> Many of the general information pages are up and running, but carrier history data has only been entered for CV-1 USS Langley through CV-9 USS Essex. IÃ¢â‚¬â„¢m currently rebuilding the Origins of Carrier Names section, which should be posted in a couple of weeks. See the Refit Page for details.

Thanks, Bill!
