Slow, I Know

Description

Between work, and too many grand ideas, and being engrossed in the story of Preble and Decatur working over Tripoli, I havenâ€™t gotten much up her the last two days.

MEGEN is still lurking about. A new, diabolical plot is being hatched. Some digital editing has already happened, but I need some organizational graphics to add before the roll out of the project, suggested by an astute member of Team Navy.

Fun for all, mind you, and many will be able to participate.

Last night I took time off to view the idiot box and settled in on â€œCreature Tech.â€• Vanderwallâ€™s force. Learn it and get with the program, it will help you with attaching in the future!
