The BlendTec guy was on the phone with MJ and said the YouTube videos all started when one employed said â€œletâ€™s grind something upâ€• and they videoed it. Put it on YouTube just for giggles and it got lots and lots of hitsâ€¦.So, yep, you guessed it, they made lots more, blending you all sorts of stuff: Golf balls, clubs, light bulbs, etcâ€¦

So, if you have a food processing task, or have an errant significant other/soon to be former spouse with stuff, this just may be the blender for you!
