When Will This Be Sold Here?

Description

embedded by *Embedded Video*

The â€˜CLEVERâ€™ Car
I first saw this on â€œFuture Cars.â€• It gets my attention at several levels, like 2D fast maneuvering, great gas mileage, looks like a 2 seat fighter (thatâ€™s the â€œpureâ€• F/A-18 pilots).More info here, here, and here, with the project main page being here.Using compressed natural gas, youâ€™d be getting some serious distance for your energy dollar. The main site has some great cutaways of the frame structure, the steering and tilting systems, and other infoâ€¦.
