Better Than An EasyBake Oven!

Description

Desktop Factory Printer

About 90 lbs, and it can create 3D objects up to 5â€³x5â€³x5â€³, with the specs fed in from your CAD/CAM program. Just advanced bubblejet like printing technology. Layers are .01â€³ per pass.

Got about $5000 you donâ€™t need more than small parts fro your car, your home, or stuff just for fun?
