Welches ist jene?
â€œI dunno, but it was something FAST!â€• â€“ Bill Cosby

Something about having to back off the throttle at 230 mph due to road conditionsâ€¦and that wasâ€¦ummmâ€¦56% powerâ€¦

If Lex canâ€™t manage to find his chestnuts and get a non-military jet flying job, despite several offers, maybe he can consider one of these as a 2D substitute. Then, for the ValOUR-IT 2007 fund raising drive, he could take a lucky high bidder out for a spin in the desert near his houseâ€¦How â€™bout it, Lex? Feeling charitable?

And who would say NASA isnâ€™t useful for something?
