Great Emergency Gear

Description

default watermark

The SPOT Satellite Tracker. Bumped across this on eBay, but you can get it for $149 if you dig around, like here.

Good coverage in the areas where our troops are going. Doesnâ€™t need an internet or cell phone tower connection. Service is $9.99/mo or $99 for the year. 911 mode, and has an â€œOKâ€• button, to just let the folks back home know youâ€™re OK. Extra service to link the user into Google Earth maps, with locations being transmitted every 10 minutes.

So whatâ€™s not to like about the â€œAAâ€• battery powered, water proof, shock proof, 7.37 oz unit?

Oh, yeahâ€¦other services to tap you into international SAR resourcesâ€¦
