ValOUR-IT: A Dayâ€™s Pay

Description

The concept sprang forth last year, when a lady working for Flag Gazer decided to forgo the money owed her for a day of labor.

Thatâ€™s pretty magnanimous. How about take a moment to click here and read the story yourself.

Lemme seeâ€¦.50 weeks/yr, 5 days/weekâ€¦250 â€œworking daysâ€• for the average American work year (math made easy for bean counters before computers and it persists). Take annual earnings and divide by 250. Whatâ€™s the number? Can you see your way clear to place that sum so others can have a far better quality of life?
