Ropeyarn Sunday "Sea Stories" and Open Trackbacks

Description

Open trackbacks here.

Sea story? Iâ€™m going â€œgreenâ€• and recycling this post It was part I of a many part serial posting titled â€œThe Value of the Military Skill Set.â€• I wrote it while trying to encapsulate what it was I, and others working around me, had learned in the service of the country and how that might translate into useful knowledge for a job in the civilian world. Take any shots you want at the writing. Make it better.

Thanks for the inputs in advance.

Update: Link to the Feb 2005 post is fixedâ€¦.
