A Memory of Iwo Jima

Description

Taco Bell has a great post. It begins with his teacher from prior days, sitting him down when he was commissioned as a Marine 2nd Lt and passing along a sword and .45, and the recollection of a combat Marine, who crossed those beaches.

It goes on to tell of Tacoâ€™s privledge of being part of a contingent in 1985 to visit the island and assist the vets in their return tour.
