Description

â€œArt still has truth, take refuge in itâ€•

What?Ã, I have no clue what moron would make such a ludicrous statement, let alone wear it in public on a t-shirt.Ã, I wonder if they think every painting really represents a real image any one of us could have observed.Ã, Talk about â€œliving in a fantasy world!â€•Ã, Iâ€™ll blame t on the NEA, who has failed to provide the asterisked disclosure for art teaches to read verbatim to students letting them know some art is called â€œimpressionisticâ€• for a reason.

Ponder it.Ã, If you can explain it to me, I will read your comments carefullyâ€¦
