I Know Who To Send My Crashed Drive Toâ€¦

Description

Amazingâ€¦simply amazing.

Gotta hand out a BZ to OnTrack Data Recovery for managing to get 99% of the data off the Colombiaâ€™s hard drive.

BZ to the drive manufacturer, too. Freefall through 39 miles (the as the rock drops stright down measurement, btw) of atmosphere, with and IV (initial velocity) of 12,500 mphâ€¦and bring back the info. Tough stuff.

Update 5/8/2008: Just pointed out by a friend, butâ€¦itâ€™s about the HD that fell from heavenâ€¦
