Naval Aviation History: July 23-24, 1968

Description

40 years ago, the USS CORAL SEA (CV-43) â€œhostedâ€• the carrier trials of the F-111B.

I found this bit of history covered in more detail at the USS CORAL SEAâ€™s website.

On that page, youâ€™ll find a link the Shipâ€™s Store, where you can purchase a 20 min DVD of the trials, as well as three links to the background story of the TFX program (done by SteelJaw Scribe

) about the navalized version of the Air Forceâ€™s F-111A.
