Pool archery game lets you be the Robin Hood of the pool, beating opponents with a keen eye and steady hand.
Get ready and take aim, from the comfort of your lounge chair or the cool water of the pool itself. Hit the floating target to test your accuracy and rack up the highest points.

It doesnâ€™t come with a high priced P-3 Orion toilet seat price tag, either! Great for all ages, andâ€¦if you donâ€™t want to be a SEAL, but are planning to go on a cruise, this is just the ticket to become part of the shipâ€™s self defense force.

For those looking for the fast track to the Navyâ€™s pecial Warfare Community, aftr you master shooting the target in the pool, then take it out and put it n the lake and fire away from your ski boat, to be familiar with the dynamics of two moving points in the equation.
