Hanging out with your friendsâ€¦107 of them

Description

At 170MPHâ€¦7/31/2009: New World Record in Skydiving: Head Down Formation of 108. Done at Skydive Chicago, with jumpers from around the world, and the head down craze inspired by a dude named Olav Zipser (I watched him jump in 1996 at Skydive Arizona...he and his team of 4â€¦had a packer working for them so they made many, many jumps a day).

Looked like 5 Twin Otters (DHC-6) which hold 22 each, soâ€¦room for two videographers.

You knowâ€¦they make it look easy, donâ€™t they?
