

Where's MEGEN? 06/05/2007

Description

[MEGEN](#) is no longer in a dark USPS box. MEGEN is far north, and has a busy schedule planned for this week, and arrangements have been made to be seen around some very memorable Navy related locations.

Plans are in the works for printable pictures of MEGEN, to be used to pose and be posed with, at the suggestion of [Flag Gazer](#) (who has a wonderful blog to memorialize those who have fallen).

Details to follow, as well as some OUTSTANDING! pictures next week or sooner if it works out.

Stay tuned.
