A Must See Slide Show â€“ When A Soldier Comes Home

Description

Found the link to a post at Strategy Page @ Captain Bâ€™s One Marineâ€™s View blog.

I suspect it was done by CPT Allison Crane, RN, MS, a mental health nurse observer-trainer from the 7302nd Medical Training Support Battalion, and is titled â€œWhen a Soldier Comes Home From Warâ€•.

Fine work, expresses much, and the best 2-3 minutes (but you can spend many more) looking at the 21 slides that comprise this excellent reminder of a combat soldierâ€™s return to â€œthe World,â€• but about life in general, too.

Hereâ€™s a few of the slides:

They all are worth looking at. Do yourself a favor, go and check it out and see small pictorial of how our service members live in the current combat zone.
