Whereâ€™s MEGEN? 5/27/2007

Description

Iâ€™m glad you askedâ€¦.especially you from the Marine, Army and Air Force ValOUR-IT Teams.

â€œMEGENâ€• (say it sort of like like a girlâ€™s name) is the â€œMost Exhaulted Golden NotEbook,â€• the trophy for the 2006 ValOUR-IT fund drive. (H/T: SteelJaw Scribe for the name)

MEGEN is going to help set up the fund collection efforts for this coming October/November campaign. If you other teams had done better, you wouldnâ€™t be getting snarked by Team Navy like this. So, hereâ€™s the deal: MEGEN is going on a trip to many places Navy, to pose for pictures and allow the escorts to tell the story of ValOUR-IT along the way.

Today, MEGAN was fortunate enough to pose for a picture with a person from Navy history, a crewman of the USS MASON (DE-529), a destroyer escort in WWII crewed by African-Americans. Ben Garrison was a Radioman 3/C and plankowner on that ship and therefore is one of the Navyâ€™s icons.We, Team Navy, are going to make a point of getting in contact with many people with strong affiliation to the Navy in order to be ready to flood the coffers of ValOUR-IT right out of the starting gate. Names and emails will be amassed to make sure we smoke you all and then we can plan on a second tour for

MEGEN in 2008.Now, just to see how weâ€™ll will douse this wonderful trophy in naval settings, youâ€™ll have to come back here and see what our evil plans are to rub it in for the next several months. Weâ€™re not telling in advance, but know the locations will be well picked for maximum PR and donation effect.For any readers, if youâ€™d like to kick in a few bucks to a great project to help the wounded troops, click here! Money is needed all year around, not just near Veteranâ€™s Day. Thanks for your support!And Matt and Jimbo, Cassandra and John, time to get your game on!
