Stop the Murdoch (Flt 93) Memorial: â€œA pig is a pig.â€•

Description

When Tom Burnett Sr. was helping to pick a memorial to Flight 93, he objected vehemently to the planting of a huge Islamic shaped crescent on the crash site. The Project asked if he would be okay with the Crescent of Embrace design if they didnâ€™t call it a crescent. He said no way:

> What the hell? You change words. A pig is a pig!

No doubt about that.

A pig is a pig

â€œHow about if we donâ€™t CALL it a crescent?â€• (Click pic for larger image)

See that Memorial Plaza that is situated roughly in the position of the star on an Islamic crescent and star flag? It marks the crash site. It doesnâ€™t have to be CALLED an Islamic star for this placement as the star on an Islamic flag to be inappropriate.

Mountain Goat and the 44 blocks

From PJ Country comes news of the Memorial Projectâ€™s latest effort to help architect Paul Murdoch adjust the disguise on his terrorist memorializing design, just enough for him to slip through gate security.

â€œMountain Goatâ€• called the Memorial Project a few weeks ago to ask about the 44 inscribed translucent blocks that are to be emplaced along the flight path. (There were 40 heroes and 4 terrorists on the flight.)

The person he spoke to said that the three translucent marble blocks that were to be inscribed with the 9/11 date are going to be replaced with a single block, â€œroughly the length three of the other blocks would have been.â€•

That would reduce the block count from 44 to 42, but would it actually fix anything?

Whether the 9/11 date is inscribed on three blocks or one, these blocks are to be built into a separate section of Memorial Wall that is centered on the bisector of the giant crescent. That is the exact position of the star on an Islamic crescent and star flag. Thus the date goes to the Islamic flagâ€“the date goes to the terroristsâ€“no matter how many blocks are used.

Date centered on bisector of crescent

See that trail that enters the Memorial Plaza (the star on the flag) from the left? It divides the Memorial Wall into separate upper and lower sections. The upper section has the 9/11 date inscribed. You can see that this upper section of wall is centered on the bisector of the giant crescent (the exact position of

an Islamic star). Click for larger image.

End it, donâ€™t mend it

No amount of tweaking the design can alter its terrorist memorializing intent. â€œFixâ€• every one of the half dozen large scale terrorist memorializing features in the design by making them all a little bit â€œoff,â€• and it only establishes the long term Islamo-fascist goal of one day restoring the Crescent mosque to its intended configuration, the same way the jihadists now use re-possession of the al-Aqsa mosque in Jerusalem (the Dome of the Rock) as a motivation driving the Jews out of Israel.

Most ridiculous of all is the Bowl of Embrace redesign, which leaves every particle of the original Crescent of Embrace design completely intact, only adding some surrounding trees. http://i191.photobucket.com/albums/z36/AlecRawls/CrescentandBowlstacked65.jpg â€œHere, put on this burka, then you can sneak your bomb on board the airplane.â€•

The proper answer, when someone is caught trying to sneak an Islamo-fascist plot through gate security, is not to tell him to go back outside and try again. It is to cart him away.

If you want to join us outraged protesting bloggers

1. in objecting to planting an Islamic symbol instead of an American one on the crash site,
2. in objecting to its pointing to Mecca and the terroristsâ€™ intended target,
3. in objecting to dishonoring the memory of the people who fought the terrorists on Flight 93
4. in pointing out how Paul Murdoch cleverly and symbolically cast the passenger and crew out of the Islamic heavens in the design while the terrorists are inside the Islamic heavens
5. in pointing out how the date and the site are dedicated to the terrorists
6. in pointing out the numerous redundant mosque design features
7. in pointing out the terrorist memorializing features
8. and post along with us on Wednesdays,

please contact caoilfhionn1 at gmail dot com with your website url. She will, in turn, add you to the email list, send you the blogroll code (if you want to put it in your sidebar), and will send you the prewritten text to post. You should receive the email from Cao a day or two prior to the Wednesday it should be posted, and tracked back to Caoâ€™s blog and Error Theory, if your blog has that capability. This will help us track who in the blogroll is posting the blogburst.
