

Lex wants a Mazda, Iâ€™™I Take One of These

Description

[Capt Lex](#) says he wants a [Mazda Kabura](#),  but I really think he let out that his eyesight is slipping from the one eagle eyed 20/15 measure he is used toâ€™.thatâ€™™s way too sad for any pilot.

But, in the spirit of tech lustÃ¢žÂ¢, Iâ€™™d like one of these: 

[A really, really BIG Screen.](#)

Now, on the other handâ€™.

these would be nice (and would keep from disturbing others in the room), butâ€™alas, as with many things developed for the DoD, itâ€™™s really kinda pricy..(I think about \$26K) and it looks very nerdish.

These are more compatible with the middle income pocket book, in the \$899 retail rangeâ€™!
